Partnership Programs to Reach the Lebanese Engineering Workforce & MENA Market

Futuris enjoys close working relationships with all of its partners. Thus, three types of Partnership Programs are prepared to help you Outsource Lebanese Engineering Services, to Build your Team or your Branch in Lebanon & to Unlock a market of 400 million people in the MENA region

MY TEAM

My Team is a program dedicated to hi-tech companies located in the Americas, Europe & Asia willing to reduce their engineering costs, it allows through the partnership with Futuris Technologies to develop a Futuris Technologies new department formed from engineers dedicated to work only and exclusively on projects dedicated for their companies.

MY BRANCH

Allows through the partnership with Futuris Technologies to get all the needed consultancy, facilities and execution to open your own branch in Lebanon (Team development and management: Engineering Sourcing, Engineering Training, Office & Operation Management, Legal advises and legal papers, accounting, low cost office location...).

FUTURIS TEAM

Allows developing your own projects and products through our engineering team. Read more at:
